**Conference Program**

The Walter D. Chapin Program Center for the Humanities is dedicated to fostering innovative cross-disciplinary research and teaching in the humanities and to promoting exchange and debate on cultural and intellectual issues among University of Washington scholars and the citizens of the greater Seattle community. The Program Center is committed to a broad conception of the Humanities that includes the humanities social sciences and the arts, as well as the sciences and the professions.

To meet these goals, the Program Center sponsors a diverse range of programs and research projects designed to inspire the cross-pollination of ideas, to encourage emerging knowledge and work of learning, and to spark meaningful cross-disciplinary engagements. These include public lectures and forums, scholarly conferences, collaborative research groups, interdisciplinary courses at all levels of higher education, public Humanities programs, exhibitions, and a fellowship program for University of Washington faculty and doctoral students.
